Subject Guides

A-level Biology

A Level Biology

Introduction

Students studying GCSE Combined Science need to have achieved a minimum Grade 6. Students studying GCSE Separate Sciences need at least two Grade 6s and a Grade 5 (with one of the 6s being in Biology). Students also need to have achieved a Grade 6 in Maths.

What You Will Learn

Students will be able to:

- Develop a greater understanding of biological ideas and be able to apply their knowledge to novel problems.
- Develop their practical, communication, research and study skills.
- Appreciate the importance of biological ideas in society and an awareness of developments in Biology in the 21st Century.
- Appreciate the complexity and diversity of life.

Where It Can Lead To

Follow a degree course in Biology, Microbiology, Genetics, Immunology, Environmental Sciences, Veterinary Science, Medicine, Dentistry, Nursing, Psychology and Pharmacy or most other degrees. Enter a Higher National Diploma in Biological Science and related programmes. Enter employment in Pharmacy, Biotechnology, Catering, Land Management, Environmental Health, Leisure Management and Health Related Fitness. Follow a teacher training programme.
