Subject Guides

Level 3 Certificate in Applied Science

KS5 Level 3 Certificate in Applied Science

Introduction

The Applied Science Level 3 course is suitable for students who want to continue their study of science beyond post-16 but do not want to follow the more traditional science A-level courses.

The course is equivalent to an AS / A-level in terms of level of qualification but covers a broader range of scientific skills and content.

What You Will Learn

Students learn science in a real, relatable and practical way, the course is designed to ensure they develop critical knowledge and transferable skills to help them navigate the future.

The course has some mandatory units on the fundamentals of science with optional units in Year 13 in Biology, Chemistry, Physics and Environmental science.

Where It Can Lead To

This course has been developed in collaboration with educators and universities to ensure students have the right combination of skills and knowledge for success in higher education or other related scientific fields.

Entry Requirements

Students need to achieve at GCSE at least a 44 in Combined Science, or three level 4s in Triple Science. Plus a recommend grade of 4 or above in Maths and English.

This course is assessed via a combination of examination and internally assessed units (coursework)
